Project Description

Sundown One will install a new audio video system in the Chatham Village Hall. It will consist of 10 hardwired 12" goose neck microphones and a wireless handheld to be passed around the crowd. All mics will be ran back to a BiAmp DSP that will automatically mix all input channels. We will install an Epson projector and new 16:9 motorized drop down screen. A Sony HD PTZ camera will be installed and the feed hooked up to a LiveStream Broadcaster Pro unit to stream meetings online. New JBL Pro speakers will be installed in the ceiling and surface mounted for proper coverage for the entire room.
