Sealed Bid : Electric Distribution Material 2020

Sealed Bid results for ELECTRIC MATERIAL FOR THE BUDGET YR 2021

Please see the attached spreadsheet for each item and bid price.

The sealed bid notice went into the paper on March 19,2020. The bid opening was April 2, 2020 at 1pm.

There were three total bidders, Brownstown Electric, Anixter and Fletcher Reinhardt. The following is the total recommended bid for each company.

Brownstown: \$0.00

Anixter: \$132,285.50

Fletcher \$220,758.75

I am requesting that the low bid for each item be accepted. There is one exception for the capacitor bank. The low bidder is Brownstown. I am requesting that we go with the next lowest bid from Anixter. The reason for this is; Brownstown does not have the staff to assist in programming and maintenance of the capacitor bank. Anixter and Fletcher both have the resources to assist in this. I am requesting that Anixter, the next lowest bid be accepted. Also, we are only recommending the purchase of one capacitor bank. This capacitor will be reimbursed through IMEA's energy efficiency program.
