D.	INCTA	STALLATION			
υ.					
		Proposed installation date: Proposed interconnect date: Proposed interconnect date: Proposed interconnect date:			
	2.	•	Proposed interconnect date:		
	3.	Submit/ Attach a one-line electrical diagram for proposed Net Metering System,			
		including the location of the Renewable Resource, the inverter, lockable disconnect switch, metering			
_	•	points in relation to the Village's electric system, and the Net Metering Location.			
E.	INTER	INTERCONNECTION COMPLIANCE & OWNER ACKNOWLEDGEMENT			
	•	Customer- generator shall be solely responsible for obtaining and complying with any and all necessary			
		easements, licenses, and permits, or exemptions, as may be required by any federal, state, local statutes,			
		regulations, ordinances, or other legal mandates.			
	•	Customer- generator shall submit documentation to the Village that verifies the System has been			
		inspected and approved by the local permitting agency regarding electrical code requirements.			
	•	Customer- generator shall not commence parallel operations of the System until written approval of the			
		nterconnection has been provided by the Village.			
	•	The Renewable Resource must be IEEE 1547 and 1547.1 compliant, UL 1741 listed, and contain an			
		nterconnection discount device that is manual, lockable, visible, and accessible.
